

Homework Guidelines

- Homework must be done on GRAPH PAPER!
(Graph paper must be either 4 squares per inch or 5 squares per inch)
- Homework must be done in PENCIL!
- Homework must be legible!
- Homework must not be bent or crumpled and must not have any ripped or torn edges!
- Homework must be turned in on time!
- Homework must be 3-hole punched and kept in your Math Binder!
- Homework must adhere to all of the guidelines stated below regarding the format of homework!.

Homework Format

1. On the first two lines of your homework paper write the following:

Name	Block
Date	Assignment

2. Fold your paper in half.
3. Begin your first problem in the left hand column.

Step 1: Number the problem.

Step 2: Recopy the original problem and/or the important information given in the original problem.

Step 3: Show all of your work step by step. Be sure to put each new step on a separate line.

Step 4: Put a *box* around your final answer.

Step 5: Skip a line and begin the next problem following the same process.

Go back to Step 1 and Start Again.

Work vertically down the left hand column of your paper. When you reach the bottom of your paper, start at the top of the right hand column and again work vertically down. Turn your paper over and do the same on the other side.

If you fail to adhere to all of the above requirements you will lose credit on your homework!
